PROJECTS

- **Spotify Clone Project**

In this project, I created a responsive music streaming website inspired by Spotify's sleek and user-friendly design. Utilizing **HTML** and **CSS**, I recreated key elements of Spotify's interface. The project features a *responsive layout* that adapts to different screen sizes, ensuring an optimal user experience on both desktop and mobile devices.

- **Simon Says Game**

Designed and developed an engaging Simon Says game using **HTML**, **CSS**, and **JavaScript**, showcasing strong front-end development skills. Implemented an impressive user interface with meticulous attention to detail, creating an immersive gaming experience. The game features a functional gameplay mechanism that challenges users' *memory and attention skills*. Incorporated scoring and high-score tracking to enhance competitiveness and replay value. This project highlights my ability to combine technical proficiency with creative design to deliver an enjoyable and interactive application.
