EXPERIENCE

Junior Full-Stack Developer - Webcreta Technologies (July 2024 - Present)

Completed a 4-month MERN Developer training at Webcreta Technologies, where I gained hands-on experience in building full-stack applications.

Built a Campaign Management System with features like automation, multichannel outreach (Email, WhatsApp, LinkedIn), and AI-powered content generation using OpenAI APIs. Also implemented response tracking and management workflows for better engagement and analytics.

ISRO, Physical Research Laboratory Ahmedabad - Office Assistant (Aug 2023 - July 2024)

Worked as an Office Assistant at ISRO - Physical Research Laboratory, Ahmedabad.

PROJECTS

Nasarna Helping Hand (ReactJs, ExpressJs, NodeJs, MongoDB, TailwindCSS) - 🔗Link

A full-stack child donation trust system and website. Role base permission Owner, trustee and Donor and authentication, Owner has all permissions and Causes base Donation raised and goal management, Trustee can manage donor details. I also Build website for Donors to see the details about how much and where they have donated their money.

Avien Clothing Brand - Full-Stack E-Commerce Website - 🔗Link

Developed a full-stack e-commerce platform using React.js, Node.js, Express.js, MongoDB, and TailwindCSS. Implemented features including an admin panel for managing brands, products, customers, and categories, along with dynamic size-based product pricing. Designed a fully responsive UI for a seamless user experience across all devices.
